§ 989.72

the prior crop year by more than 5 percent: *Provided*, That, such sale of reserve tonnage shall be limited to the quantity exceeding 105 percent of shipments for the first 10 months of the prior crop year; and/or an inadequate carryover, the free tonnage outlets cannot be reasonably well supplied by the tonnage released to the industry as a whole by the committee's marketing policy for that varietal type. Any quantities of reserve raisins offered to handlers for free use, except as provided in §989.54(g), may be offered to them on the basis of handler shipments or acquisitions in the same manner as in paragraph (d)(1) of this section. If offered on the basis of acquisitions, shares shall be determined pursuant to paragraph (d)(2) of this section. If offered on the basis of shipments, the same formula shall be used, except that shipments shall be used as the basis instead of acquisitions in computing handlers' shares. However, such raisins shall not be sold at a price below that which the committee concludes reflects the average price received by producers for free tonnage of the same varietal type purchased by handlers during the current crop year up to the time of any offer for sale of reserve tonnage by the committee, to which shall be added the costs to the equity holders incurred by the committee on account of receiving, inspecting, storing, fumigating, insuring, and holding of said raisins, and including costs of taxes and interest: *Provided*, That, where the outlook for the next crop year or other factors have caused a downward trend in the prices received by producers for free tonnage raisins or in the prices received by handlers for free tonnage packed raisins, reserve tonnage may be sold to handlers at the currently prevailing or the approximate computed field price for free tonnage raisins, as determined by the committee. The committee may sell reserve tonnage raisins of any varietal type to any handler to provide him with raisins to sell as free tonnage if such handler has lost all or part of his free tonnage because of fire or other disaster beyond his control subject to the applicable provisions of this para-

graph and in an amount equal to such tonnage so lost.

EFFECTIVE DATE NOTE: At 62 FR 50484, Sept. 26, 1997, in §989.67, at paragraph (j), the words "by more than 5 percent" and "105 percent of" in the first sentence were suspended indefinitely, effective Sept. 29, 1997.

§ 989.70 Storage of raisins held on memorandum receipt and of packer-owned tonnage.

All raisins stored by a handler for another person on memorandum or warehouse receipt, or raisins produced and stored by a handler, shall be stored separate and apart from other raisins and shall be clearly marked or tagged as raisins stored on memorandum or warehouse receipt or as raisins produced by the handler but not acquired by him in his capacity as a handler.

§ 989.71 Disposition of unsold reserve tonnage in above parity situations.

In the event that the Secretary should find, during a crop year when reserve tonnage percentages have been designated and are in effect pursuant to this part, that the estimated season average price for raisins for that crop year will be in excess of the price level contemplated by the provisions of section 2(1) of the act, he shall issue an order providing for the orderly disposition of the unsold reserve tonnage then on hand, in such outlets, at such times, and in accordance with such terms and conditions, as he may determine to be appropriate in the circumstances. In determining the liquidation procedures and terms, the Secretary shall give consideration to the data and recommendations, if any, which may be submitted by the committee.
